Subject: EPA's 2009 CUE MeBr Final Rulemaking

Hi all,

Please find attached EPA's 2009 CUE MeBr final rulemaking.

Because I'm mindful of the Representative Ross's request and the fact that it's April, I request you submit your comments on this package by April 15. As usual, many apologies for the crunch in the timeline.

I also would like to tentatively schedule a conference call on the April 16. Depending on the comments, we might not need to have this call, but I still would like to block off time for this.

Many thanks for your help on this rule.

Amanda
